Physician and Surgeon

INCONNECTION WITH THE GENERAL PRACTICE CARPETS, WALL-PAPER, &C. of Medicine, I treat by a new and reliable medium. and with the happiest results, all forms of diseases of the Nervous, Seminal and Urinary and Sexual systems. Young men with hollow cheeks and pallid countenance, telling in fearful language the silent working of some formidable disease undermining your constitution, mem ory and reason, burrying you to a premature death, re flect while reason holds sway and avail yourself of a treatment that dissipates the slightest disease, and cures the harrassing weakness and other causes of serious difficulty and perpetual annoyance.

Spermatorrhœa, Seminal Weakness, Nocturnal Emissions, Sexual Debility, impotency, Effects of Self-Abuse, and their results—inability to Consummate the Marriage Contract, Mental and Physical Prostration, Epilepsy. CARPETS,

Insanity and Consumption. Like a staunch murderer, steady to his purpose, Presses him close through every lane of life, Nor misses once the track, but presses on, Till forced at last to the tremendous verge.

And at once he sinks." Likewise, I will guarantee a radical cure of Syphilis, Gonorrhæa and Gleet, in all their stages, entirely re-moving from the blood the last spark of these terrible diseases that so gradually burn up the fountain of life.

Diseases and Conditions Peculiar to Females. The beauty and extreme delicacy of the female organ-

ization, to say nothing of its physiological characteris-tics, are sufficient indications that it is sub ect to forms of disease and modifications peculiar to itself. The physician of the present day does not encounter any more forms of uterine diseases than did the physician of fifty years ago; but owing to the present social condition of woman, her diseases are increased to frequency, and to the truth of this assertion the melancholy deaths by

consumption bear ample witness.

At the American Dispensary we treat by a new method, and with the happiest results, Prolapyellowish, dirty green pallor of the surface; Emansio Messium, or absent Menstruction; Amenorrhea, or Restruction; Leuchorrhea, or excessive and altered secretion of the mucus-generally white, or nearly coloress

Reader, I have given you a class of diseases that are met with in Females of all ages, whether married or unmarried; and to married Females would say that there are many other forms of diseases peculiar to your sex—
diseases of Pregnancy, Parturition, and Lactation, of
which space will not admit an elucidation. I omit it for
to all before purchasing. the council chamber, adding but one more disease to this list, and that is a formidable one—Ulceretion of the body of the Uterus. If you are afflicted with organic weakness, or any as

semblage of morbid phenomens of this character, you have no time to spare, but at once apply for med cal aid. If too late to arrest the disease, it is at least poss!ble to palliate the symptoms, and thus smoothe the pathway to an untimely grave.

In a majority of instances these diseases have made considerable progress before the patient becomes alarmed. In some cases an emaciation is the first indication that aitracts the attention of the patient's friends. And here, reader, let me call your earnest attention to the fearful significance of the word "wasting." It not only constitutes the leading feature, but the earliest and most ominous symptor s of Consumption, examples of which are invariably met with in young ladies who are gifted with high intellectual endowments, refined acliancy-not regarding these indications as being those 11 & 12 Up-Stairs, Blackford's Block of incipient disease, but those of personal charms

SYMPTOMS.

SYMPTOMS: The symptoms of Catarrh, as they generally appear, are at first very slight. Persons find they have a cold, that they have frequent attacks, and are more sensitive to the changes of temperature. In this condition, nose may be dry, or a slight discharge, thin and acrid afterwards becoming thick and adhesive. As the disease becomes chronic, the discharges are increased in quantity

and changed in quality; they are now thick and heavy, and are hawked or coughed off. The secretions are offensive, causing a bad breath; the voice is thick and na-Moses' Spectacles are made of the sal; the eyes are weak; the sense of the smell is lessene or destroyed; deafness frequently takes place. Another common and important symptom of Catarrh is, that the person is obliged to clear his throat in the morning of a their fair value thick or slimy mucus, which has fallen down from the head during the night. When this takes place the person may be sure that his disease is on its way to the lungs, and should lose no time in arresting it. The above are but few of the many Catarrh symptoms

TESTIMONIAL From Hon. Thomas J. Turner, Ex-Member of Congress rom Illinios, late Speaker of the Illinois House of Representatives, and Grand Master of A.F., and A. M., of the State of Hillnois. FREEFORT, October 21, 1863. Dr. D. H. SEELYE - Dear Sir; In reply to your notice of

the 18th inst., I would say that I was severely afflicted

with Catarrh for years, when I became acquainted with

you and bought two bottles of your liquid Catarrb Rem-
